

Bums & Tums

DATA SHEET

Target Audience: Stomach, Hip, Buttocks, Upper Back.

The Bums & Tums helps to strengthen and tone the stomach and hips whilst working to firm and lift the buttocks simultaneously a gentle massaging action works on the upper back, buttocks and feet.

A great way to end the workout releasing muscle tension and relieving stress. The centre vibrations also improve peripheral blood circulation.

Features Include:

- Dual function of both upper & lower extremity
- Power assisted (plug and play installation)
- Standard 4.3" touch screen console unit with manual and programme options
- Available in a wide range of colours
